

- GIRA PEARL PINK TARASEN ZEN 35g
- GIRA PEARL PINK CARDSTOCK 120g

THE INSIDE SCOOP

These two unique papers were made in Fukui Province, Japan. This province is noted for their creativity in designing different looks of western-style papers. The luminous Pearl coating is unique to these papers and is called "Gira" meaning sparkling. Gira refers to the silvery ink used to print the finish.

Each Tarasen sheet has been silk-screened, sheet by sheet. Zen is, of course, a sect of the Buddhist religion that emphasizes the value of meditation and Intuition.

These papers were discovered on a recent trip and we are thrilled to bring them directly you.
